Not a problem, Lisa. It's gotten pretty quiet today (okay, I lied. Things got crazy just as I started responding to your email. Sorry for the delay). Here's the versions I provided to you. If they are different than what you wanted, I'll have to coordinate with the regional office on Monday. Just let me know. - lw

Laura,

I so hate to bother!...but

Do you electronic copies of the

- Polrep #1
- Environmental Restoration, LLC, July 2014, Request for Proposal, Gold King Mine, 16 p.
- Environmental Restoration, LLC, May 2015, Action/Work Plan, Gold King Mine, 6 p.

We are trying to collect all of the documents that you all provided so we can "file" them in a handy fashion. The list above includes the only ones we don't have.

Your assistance is much appreciated!

Ed,

I've been waiting to hear from Steve but, is this what you're looking for? - lw

Subject: working assumption doc

Hi Laura:

Would you mind sending us a clean and readable copy of the "working assumption" diagram. The copy that we received is so dark that it's all but impossible to read. I believe it's an attachment to the workplan but I'm not positive about that.

Thanks much,
